

Camp Endeavors 2018

Dear Families,

Greetings and welcome to Camp Endeavors 2018! We are delighted and committed to providing a top-notch experience to our school age campers this summer. We are dedicated to providing innovative, fun and exciting camps for our children 5-12 years old. We are also dedicated to making this summer memorable, fun and exciting for your child. We work towards making their experience a home away from home.

We provide a safe and enriching environment. We are positive your young camper will make some memories that will last them a lifetime. We are dedicated to make an impact on your child's experience this summer. We try to pack our programming with relationship building activities which contributes to camper's increased confidence, problem solving skills, and interest in new hobbies and activities. The staff are focused on being a good role model for respect, responsibility, caring and honesty. We are very proud of our program and never stop evolving it to be better each summer. Hope you come have fun at NGEC Camp Endeavors!

Camp Endeavors takes a project approach, which empowers children to direct their learning based on their interests through authentic experiments and activities. Teachers prompt children to use their imaginations, create their own solutions, and investigate themes as they facilitate and guide the learning process. The children arrange a culminating event or project that not only displays their work, but celebrates their achievements.

Throughout the summer, the children will use their imaginations, plant a garden, perform a play, plan a sport and engage in water day. The possibilities are endless when the children are involved in making decisions about their learning!

In Camp Endeavor, children create, explore, construct, design, investigate and invent. We invite you and your child to discover a summer full of adventure at Next Generation Educational Center, Camp Endeavor.

If you request to cancel your enrollment before the start of the camp week, you will receive a 100% refund or NGEC voucher minus your deposit. If you request to cancel your enrollment on the first day of camp, you will receive a 50% refund. No refunds will be given if you cancel on the second day.

Thank you!

Next Generation Educational Center
